

# “EL PARTIDOR DE PONTS”

**ITINERARY:** Pons village - Canal Urgell's dam - Second House Gate - Tossal village - Sant Domènec - Pons village (Partidor de Pons)

**DIFFICULTY:** Low

**KING OF ROUTE:** Round

**SIGNPOSTING:** No

## TIPS TO KEEP THE ROAD

**From Pons** we take the road towards Lleida [C 13 road] to the bridge over the river Llobregós. We crossed to the right along the path of Tossal. Follow the path until you

find a cross and a paved path to the left. We left him behind and follow the path to the right, which borders the river Segre. Soon we will the Pau's poplar.

**After the poplars** we will find the entrance to the dam and the floodgates. We will follow Llenguadera's tunnel. For those who can not pass through the tunnel, follow the path that lies between the mountains and the river Segre, which passes behind the Gate House. We arrived at Mas Ferran (right would be located Torreblanca). Once there, follow the path on the left, that will take us out the Llenguadera tunnel and the Second House Gate. **From here**, we continue along the sidewalk Ugell's Canal until you reach the Tosal's bridge and turn left. We find the church of Tossal and then a fork. **We'll take the right path** and continue along the path that leads to the village of Sant Domènec, located in average costs. There we'll find a path will that lead to an asphalt path (called Cap de la Costa, on the map). We will continue to the right (the way we stopped at the beginning of the route). We will see the cross. From now until reaching Pons continue on the path through which we passed.
